REMARKS [REDACTED]

25X1

25X1

25X1

1. [REDACTED] did not observe any construction activities on the Czech side of the border near Lachring (M 51/P 19). The locality of Iohannenberg (N 50/P 45) was demolished by the Czechs. No building activities were observed in this region since January 1951. In the late fall of 1950, barracks buildings were set up north-east of Irenenstein (N 50/P 45) by Czech military personnel. At the same time soldiers were assigned to woodcutting details.

2. There are three small water reservoirs in the area near Lachring. These reservoirs were built years ago and were used to operate three sawmills. There is a possibility that the water reservoirs were repaired late in 1950, since one of the sawmills resumed operation in February 1951. [REDACTED] any construction activities in the area near Lachring, could not have escaped his notice during December 1950.
